LEXMARK
TM

Why Lexmark?

Founded in 1991 from an IBM heritage in Lexington, Kentucky, Lexmark is one of the few American companies to own, develop and market inkjet, monochrome laser and colour laser print technologies. Lexmark is poised to deliver on its promise to produce quality, dependable products well into the future.

Lexmark XS748de Overview

Robust high-quality colour Rely on the Lexmark XS748de colour laser MFP for the high-quality colour printing, scanning and copying essential to business.

- Match corporate colours with Lexmark Named Color Replacement and PANTONE® calibration.
- Lexmark high-yield cartridges let you print up to 12,000 pages per cartridge in black and 10,000 pages per cartridge in colour.¹
- Print and copy quickly at speeds up to 33 ppm and a time to first page as fast as 9 seconds in both black and colour.
- The high-speed processor, 512MB RAM and Gigabit Ethernet networking mean fast data transfer and fast processing, even on complex colour documents.
- Reliable paper feeding supports diverse media, including card stock, vinyl labels, banners and more.

Performance and productivity The combination of easy-to-use features and reliable performance means business processes are intuitive and you are productive.

- The easy-to-use 7-inch (17.8-cm) colour touch screen provides audible feedback and tablet-like navigation.
- Expand input capacity with optional paper drawers that boost total input capacity up to 4,300 sheets.
- Quickly print and copy documents using the instant warm-up fuser that also reduces energy consumption.
- Create custom messages to provide helpful information such as helpdesk telephone numbers and company communications.
- Instead of installing individual drivers for each printer model, the Lexmark Universal Print Driver provides a standardised, one-driver solution.

Business solutions The Lexmark Embedded Solutions Framework (eSF) helps expand functionality, move information more efficiently, lower costs and analyse usage patterns.

- Quickly and efficiently access basic eSF solutions directly from the 7-inch (17.8-cm) colour touch screen.
- The hard disk supplied as a standard provides the ability to store files on the device and run additional solutions with ease.
- Pre-loaded solutions mean you can be productive and save time, money and paper right out of the box.
- Additional solutions are available for greater savings and productivity.
- Models with solutions capabilities also have the card reader option for greater security.

¹ Average continuous black or composite CMY declared cartridge yield in accordance with ISO/IEC 19798.

Why Lexmark colour?

The documents you print define an important image – yours. The Lexmark XS748de colour laser MFP is perfect for printing reports, marketing collateral and on-demand signage with brilliant colour reproduction. So when you put a high-quality colour document in a client's hands, you're advancing communication and your company's image at the same time.

Professional colour quality Colour communicates, informs and persuades. Vibrant, expressive colour also attracts attention and increases impact. In short, colour is your brand – who you are. The Lexmark XS748de colour laser MFP is a colour powerhouse. It offers repeatable, accurate colour matching and features that create continuity from one document to the next.

- **Easy brand matching** - Match corporate colours on marketing collateral and logos with Lexmark Named Color Replacement. Simply enter specific colour values for easy colour matching, including company defined colours and PANTONE® colour.
- **Money saving colour** - Colour is business critical, but often it is seen as expensive or wasteful. Lexmark ColorCare Technology helps change that perception. Tools, like User Quotas, help you manage and make intelligent decisions about colour printing.
- **Continuous colour** - Print with confidence, knowing the Lexmark XS748de MFP produces documents at optimum quality. Status screens and supply alerts notify you when toner is low, so you don't run out in the middle of a job.

Professional colour performance Whether you need one document or many, consistency is important. The Lexmark XS748de colour laser MFP delivers in all types of situations – last minute presentations, large print jobs for promotional events or constantly used forms. It creates high-quality documents on a variety of media while helping you save money at the same time.

- **Consistent colour across media** - Lexmark colour technology gives you consistent, professional colour on a variety of media types and sizes. Carry a consistent look across materials and show clients your true colours, no matter what you provide to them.
- **Print on demand** - Eliminate waste. Don't print forms, marketing materials or other documents externally and store the paper versions. Instead, with the Forms and Favourites solution, store frequently required files online and print in-house and on demand.
- **On-the-fly updates** - Create custom colour documents directly from the Lexmark XS748de MFP. Use print preview and post process job changes to make updates like removing a cover page or switching between simplex and duplex printing.

Lexmark XS748de Solutions

Reduce unnecessary printing and simplify work processes through Lexmark solutions. The Lexmark Embedded Solutions Framework (eSF) enables you to add a wide range of software apps directly onto the device. Solutions are designed with your productivity in mind, helping you streamline—or even eliminate—paper intensive business processes.

Lexmark XS748de Built-in solutions

The following apps are available on the Lexmark XS748de colour laser MFP.

Forms and Favorites

Eliminate waste and inefficiencies associated with preprinted forms. Rather than printing collateral externally and storing the paper versions, store frequently required files online. Then print them in-house and on demand.

Scan to Network

Lets you capture a digital image of a hardcopy document and route the file to a shared network folder. You can preview the first page, rescan the document if necessary, and print a confirmation page with delivery status and time.

Change Background

Communicate to customers and employees and make the device truly your own. Customise the background or a timed idle screen to show one of the four preloaded backgrounds or any image you want, such as a photo or logo.

Change Language

Easily switch the language displayed on the touch screen – 18 languages are supported.

Lexmark XS748de Additional solutions

In addition to the solutions built into the device, a diverse portfolio of additional Lexmark solutions is available to help accommodate your workflow needs. The following are just a few examples.

Customer Support

Lets you send an e-mail alert to your help desk or service provider to request service or support. Pertinent information about the device can be automatically attached to the e-mail message.

Google Cloud Print

With the Lexmark Google Cloud Print™ app, you can print from Gmail and Google Docs from your smart phone or tablet. Your documents remain in the Google Cloud until you log into your Google account using the touch screen on your Lexmark printer.

Device Quotas

Allows the Administrator to configure user level quotas for Print, Scan, Copy, and Outbound Fax on devices with the optional hard disk.

Contact your Lexmark Business Solutions Dealer for additional solutions.

Lexmark XS748de Key features

Features that help you optimise your work

Lexmark XS748de colour laser MFP shown with optional 2,000-sheet high capacity feeder and caster base.

1) Easy brand matching
Consistently match branded colours and print marketing collateral in-house with Lexmark Named Color Replacement.

2) Intuitive colour touch screen
Operate your printer with ease and confidence using the 7-inch (17.8-cm) colour touch screen that makes navigation smart and intuitive.

3) Convenient updates
Preview documents and change output settings, such as two-sided printing, directly at the device.

4) Flexible input capacity
With optional 550-sheet drawers, a specialty media drawer and a 2,000-sheet high capacity feeder, customise input options to meet your printing needs.

5) Two-sided printing
Reduce paper consumption by up to 50% and reduce your impact on the environment with two-sided printing.

6) Walk-up USB printing
The front USB port allows for convenient walk-up preview, printing and scanning of PDFs and many printable image file formats.

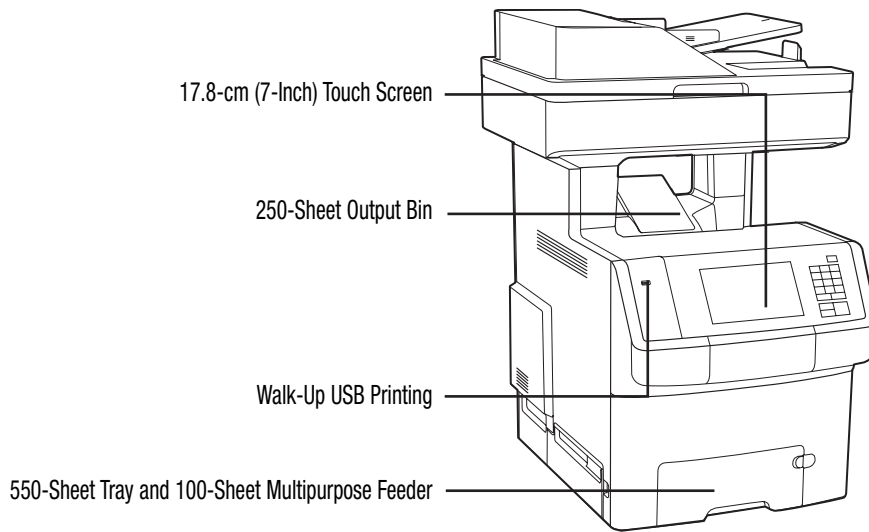

7) Eco-friendly printing
Print responsibly with Eco-Settings that let you customise print settings and Hibernate Mode which reduces energy consumption to less than one watt.

8) Built-in security
Advanced security controls protect data at every stage: from user authentication to security audits and disk wiping.

Size (mm. - H x W x D) / Weight (kg)	787 x 546 x 622 mm / 44.2 kg

¹ Average continuous black or composite CMY declared cartridge yield in accordance with ISO/IEC 19798.

² "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multisheet operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.

³ "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.
