d-COPIA

1801MF / 2201MF

1801MF^{PLUS} / 2201MF^{PLUS}

EFFICIENT AND VERSATILE

The new **d-Copia 1801MF**, **d-Copia 2201MF**, **d-Copia 1801MF^{PLUS}** and **d-Copia 2201MF^{PLUS}** multifunctional series are designed to perform all the current business tasks coming up in busy offices. These devices can handle documents up to A3 format, achieve print and copy speeds of up to 18/22 A4 pages and 8/10 A3 pages per minute with an image resolution of 600 dpi and a greyscale of 256 shades, which ensures that your documents are always of impressive quality.

FLEXIBLE AND COMPLETE

The new multifunctional systems offer a wide range of intelligent functions such as scan once - copy many, rotation sort, margin movement, just to mention a few, making them even more productive. The **PLUS** models can be expanded with **optional network print and scan and with an optional fax unit** which can be useful additions when sharing the device in small teams or departments. Furthermore, the optional duplex unit for double-sided printing, helps to save resources and reduce paper costs.

ID COPY FUNCTION

The ID card copy function allows you to copy both sides of an original **ID card in one operation** on to a single sheet and the layout mode enables you to downsize two or four originals to make them fit on to one page; which saves paper.

Paper capacity up to 1,300 sheets (with options)

Colour scanner via TWAIN protocol

Rapid first-copy time: 5.7 sec.

PRINT BOX

When many people share the device, the **standard print box functionality** enables users to temporarily store a print job. This prevents undesired mixing of printed documents. Furthermore, password protection can also be set.
